

THE 10th ANNUAL INTERNATIONAL SEMINAR ON TRENDS IN SCIENCE AND SCIENCE EDUCATION

Peer-Review Process

Transparency: The journal's peer review process is double-blind, ensuring the confidentiality of both reviewers and authors. The process is outlined transparently for all participants.

Reviewer Selection: At least two qualified reviewers are assigned to each manuscript to provide expert assessments and recommendations.

Reviewer Training: Committee provides training for reviewers to ensure consistent, fair, and scholarly review standards.

Conflict of Interest: Clear guidelines are in place for identifying and managing potential conflicts of interest among reviewers.

Appeals and Disputes: The journal has established mechanisms to handle appeals and disputes fairly and promptly during the peer review process.
